

# COMPACT, EASY-TO-USE A4 BLACK & WHITE DEVICES FOR SMOOTH PRINTING IN SMALLER WORKSPACES.

Compact and easy-to-use A4 black & white multifunction devices delivering essential office functionality, a smooth user experience, and fast print and scan speeds.

## imageFORCE 1440 Series

### BOOST PRODUCTIVITY

Work efficiently and save time with fast printing and scanning. Quick machine warm-up time and fast printout time means you'll get the output you need in seconds.

### SMOOTH USER EXPERIENCE

An intuitive user interface and QR code guiding users to an online manual helps to seamlessly carry out printing and scanning workflows. Self-maintenance is simplified via an all-in-one toner cartridge while the compact size of devices means you can print from small offices with no hassle.

### ROBUST SECURITY

Keep documents, devices, and network safe with advanced security designed to simplify protection. Security Settings Navigator helps minimise the need for IT support.

### IMPROVE SUSTAINABILITY

Make a conscious effort to help the environment with devices that are made up of recycled plastic. Low energy consumption also means a reduced carbon footprint.

| FAX SPECIFICATIONS                 |                                                                               |
|------------------------------------|-------------------------------------------------------------------------------|
| Maximum Number of Connection Lines | 1                                                                             |
| Modem Speed                        | Super G3: 33.6 kbps<br>G3: 14.4 kbps                                          |
| Compression Method                 | MH, MR, MMR, JBIG                                                             |
| Resolution (dpi)                   | 400x400 (Ultra Fine), 200x400 (Super Fine), 200x200 (Fine), 200x100 (Normal)  |
| Sending/Receiving Size             | Sending: A4, A5R*, A6*, B5*<br>Receiving: A4, A5, A5R, B5<br>* Sent as A4     |
| FAX memory                         | Up to 512 pages (90 jobs)                                                     |
| Speed dials                        | Max. 281                                                                      |
| Group dials/destinations           | Max. 299 dials                                                                |
| Sequential broadcast               | Max. 310 addresses                                                            |
| Memory backup                      | Yes                                                                           |
| Fax Features                       | Sender's Name (TTI), Direct Send, Preview, TX Report, Sequential Broadcasting |

| SECURITY SPECIFICATIONS           |                                                                                                                                                                                                                                                                                                                       |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Authentication and Access Control | Department ID Authentication (Department ID and PIN Login, Function Level Login), uniFLOW Online/ uniFLOW*(PIN Login, Card Login, Card and PIN Login)<br>*1 Optional                                                                                                                                                  |
| Document Security                 | Print Security (Secure Print, Encrypted Secure Print, uniFLOW Secure Print*), Scan Security (Encrypted PDF, Device Signature PDF/XPS), Send Data Security (Restricted E-mail/File send functions, Confirming FAX number, Allow/Restrict Fax Driver Transmissions, Allow/Restrict Sending from History)<br>*1 Optional |
| Network Security                  | TLS 1.3, IPSec (FIPS140-3), IEEE802.1X authentication, SNMPv3, Firewall Functionality (IP/MAC Address Filtering), WPA3 support (Wi-Fi), Enabling/Disabling (Network Applications, Remote UI, USB Interface), G3 FAX separation from LAN, USB Port separation from LAN                                                 |
| Device Security                   | Job Log Conceal Function, Protecting MFP Software Integrity: Verify System at Startup (NIST SP800-193: Protection), Checking MFP Software Integrity & Platform Firmware Resiliency: Automatic System Recovery (NIST SP800-193: Recovery)                                                                              |
| Device Management and Auditing    | Administrator Password, Digital Certificate And Key Management, Cooperating with External Security Audit System (Security Information and Event Management), Security Policy Setting                                                                                                                                  |

| ENVIRONMENTAL SPECIFICATIONS |                                                                                                                                                                                                                                                                                                                                       |
|------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Operating Environment        | Temperature: 10 to 30 °C<br>Humidity: 20 to 80 % RH (Relative Humidity/No condensation)                                                                                                                                                                                                                                               |
| Power source                 | 220-240V(±10%) 50/60Hz (±2Hz)                                                                                                                                                                                                                                                                                                         |
| Power consumption            | Maximum: Approx. 1280 W<br>Active printing: Approx. 480W<br>Sleep mode: Approx. 0.9 W<br>Typical Electricity Consumption (TEC): 0.32 kWh/ week (230V) For detailed information relating to Lot26 regulation, please go to:<br><a href="https://www.canon-europe.com/business/lot26/">https://www.canon-europe.com/business/lot26/</a> |
